

ENABLING PROGRESS

**YOUR TRUSTED PARTNER FOR INDUSTRIAL AND
COMMERCIAL MATERIAL SUPPLY ACROSS SAUDI ARABIA.**

WELCOME MESSAGE

SafetyLink Trading Establishment is a dynamic and forward-thinking general trading company, proudly based in AlKhubar, Saudi Arabia. We specialize in the supply of high-quality industrial materials, equipment, and tools, serving a broad spectrum of sectors including oil & gas, construction, infrastructure, and manufacturing.

ABOUT US

Our product range include construction materials, mechanical valve components, AC maintenance parts, and electrical items—sourced to meet the demanding needs of modern industry.

We proudly serve clients across the construction, oil and gas, and maintenance sectors, delivering reliable products, responsive service, and cost-effective solutions. Our focus on quality, consistency, and customer satisfaction makes us a dependable partner for your business operations.

VISION AND MISSION

We take pride in the long-term relationships we've built, and we continue to grow through innovation, integrity, and a relentless focus on service excellence. SafetyLink is not just a supplier—we are a strategic partner in your success.

Vision Statement

To be a leading provider of industrial solutions for the oilfield and construction sectors in Saudi Arabia and beyond. To deliver dependable, cost-effective materials backed by exceptional service and a commitment to operational excellence.

Mission Statement

To deliver high-quality, compliant, and cost-effective industrial materials tailored to the evolving needs of the oilfield and construction sectors. Reliable sourcing, prompt service, and customer satisfaction —driven by a dedicated team and a focus on operational efficiency.

SAFETYLINK

INDUSTRIES WE SERVE

CONSTRUCTION & INFRASTRUCTURE

From structural materials to tools, fasteners, and electrical components, we provide essential products that support large-scale civil, commercial, and industrial construction projects across the Kingdom and beyond.

ELECTRICAL & MECHANICAL MAINTENANCE

We serve maintenance teams with a consistent supply of reliable tools, parts, and consumables necessary for equipment servicing, facility upkeep, and system upgrades in industrial and commercial settings.

OIL & GAS / PETROCHEMICAL & ENERGY

We supply critical components and materials required for upstream and downstream operations, including mechanical valves, piping systems, safety equipment, and electrical supplies—ensuring reliability in high-pressure environments and compliance with industry standards..

MANUFACTURING & INDUSTRIAL PLANTS

Our solutions cater to the operational needs of factories and production facilities, supplying everything from basic consumables to specialized industrial tools that support seamless, continuous operations.

HVAC & AC MAINTENANCE

Our inventory includes a wide selection of AC spare parts, fittings, and consumables designed to support HVAC system installation, repair, and maintenance, helping ensure energy efficiency and system reliability.

MECHANICAL SUPPLIES

We offer a wide variety of mechanical components essential for industrial operations, ensuring durability and precision.

Items include:

- Valves: Gate, globe, ball, and butterfly valves for flow control.
- Flanges & Gaskets: Wide range of sizes and materials for leak-proof connections.
- Bearings & Seals: High-performance bearings and sealing solutions to reduce friction and wear.
- Pumps & Motors: Industrial-grade pumps and electric motors for various applications.

PIPING MATERIALS

Reliable piping solutions for oilfield and construction projects with materials designed to withstand harsh conditions.

Items include:

- Carbon Steel & Stainless Steel Pipes: Durable and corrosion-resistant options.
- PVC & HDPE Pipes: Lightweight, flexible piping for water and chemical transport.
- Pipe Fittings: Elbows, tees, reducers, and couplings for flexible system design.
- Pipe Supports & Hangers: Robust fixtures to ensure pipe stability and safety.

PLUMBING SUPPLIES

Comprehensive plumbing materials suitable for industrial and commercial applications.

Items include:

- Sanitary Fittings: Faucets, valves, and connectors for water systems.
- Water Tanks & Pumps: Storage and distribution equipment for efficient water management.
- Pressure Regulators & Filters: Ensure system safety and water quality.

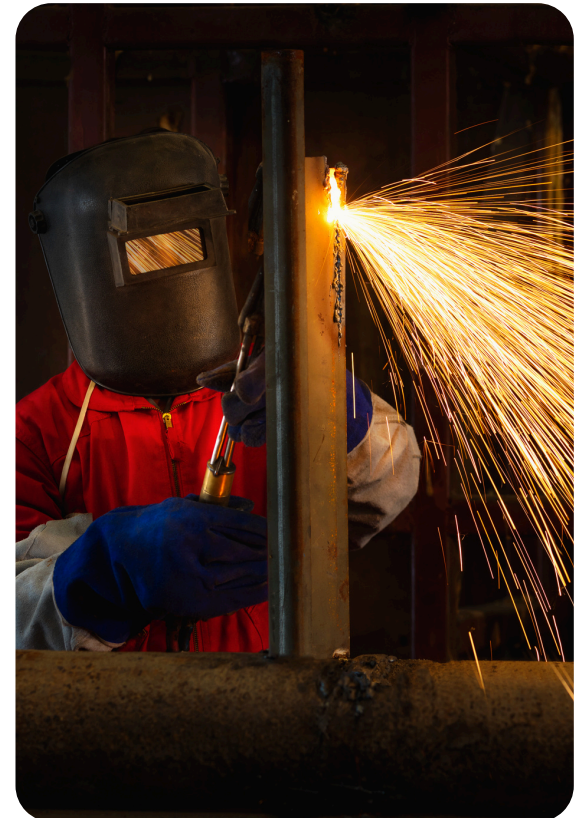

WELDING SUPPLIES

Top-quality welding machinery and accessories that deliver consistent performance and safety.

Items include:

- Welding Machines: Arc, MIG, TIG, and spot welding machines.
- Electrodes & Welding Wires: Consumables suitable for various metals and processes.
- Welding Safety Gear: Helmets, gloves, and protective clothing to ensure worker safety.

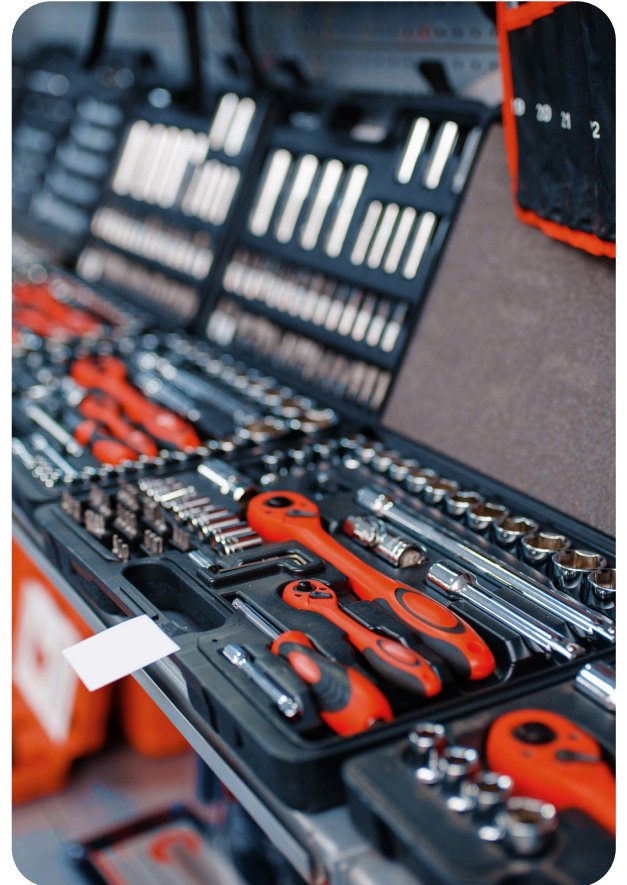

INDUSTRIAL EQUIPMENT

Durable hand and power tools designed for precision, efficiency, and ease of use.

Items include:

- Hand Tools: Wrenches, screwdrivers, pliers, hammers, and more.
- Power Tools: Drills, grinders, saws, and impact tools.
- Workshop Equipment: Ladders, trolleys, toolboxes, and storage solutions.

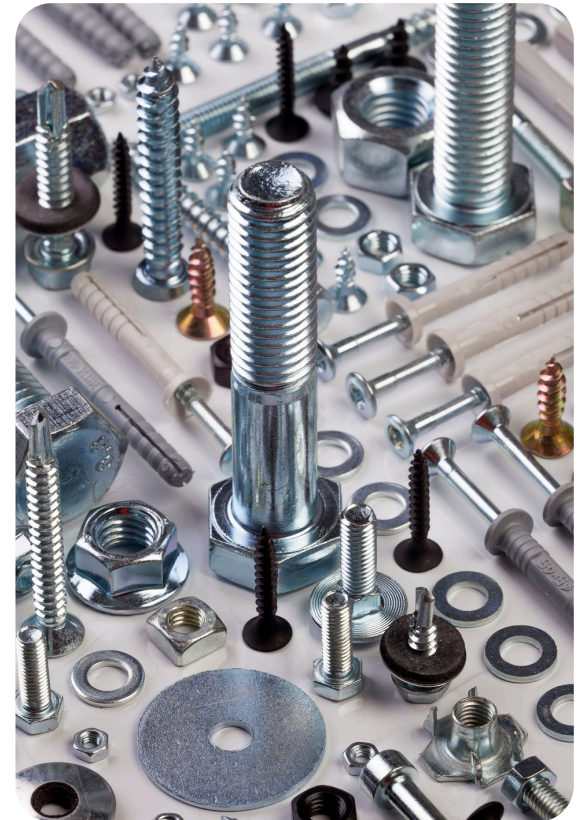

FASTENERS & HARDWARE

Wide selection of fasteners engineered to secure and hold industrial assemblies reliably.

Items include:

- Bolts, Nuts & Washers: Various grades and finishes for different applications.
- Screws & Rivets: Precision fastening solutions for metal and wood.
- Anchors & Clips: Secure components in place with industrial-grade hardware.

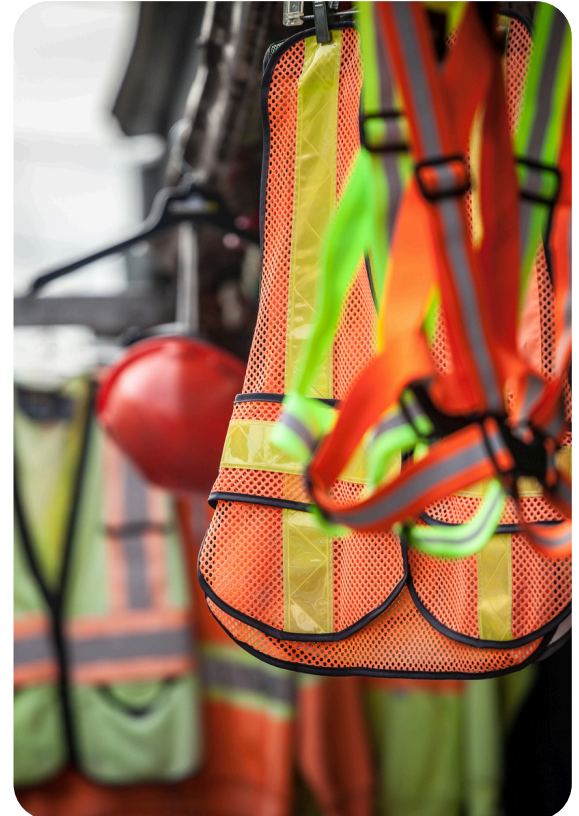

SAFETY & PPE SUPPLIES

Essential safety gear to protect workers and comply with industry regulations.

Items include:

- Helmets & Hard Hats: Protect against head injuries in hazardous environments.
- Gloves & Goggles: Hand and eye protection for a variety of tasks.
- High-Visibility Clothing & Safety Shoes: Enhance worker visibility and foot protection.
- Fire Extinguishers & First Aid Kits: Critical safety equipment for emergency preparedness.

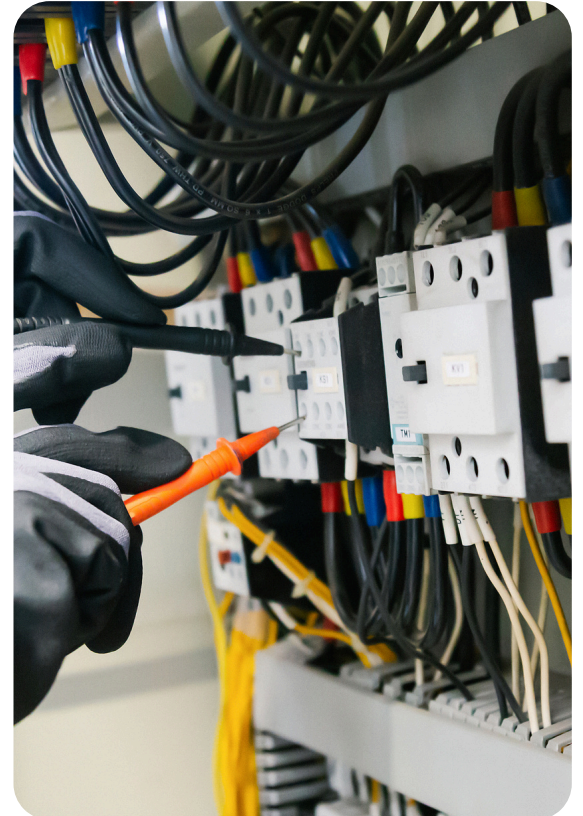

ELECTRICAL SUPPLIES

Comprehensive electrical components for industrial power and control systems.

Items include:

- Cables & Wiring: Power and control cables meeting industry standards.
- Conduits & Cable Management: Protect and organize electrical installations.
- Lighting Fixtures: Industrial-grade LED and fluorescent lighting solutions.
- Switchgear & Control Panels: Reliable control and protection for electrical circuits.

AC SPARES & SUPPLIES

High-quality air conditioning parts to maintain system efficiency and longevity.

Items include:

- Compressors & Condensers: Core components for cooling systems.
- Thermostats & Control Boards: Precise temperature regulation and system control.
- Refrigerants & Accessories: Support system performance and maintenance.

Filters & Fan Motors: Ensure clean air flow and proper ventilation.
